Creating Roadmap

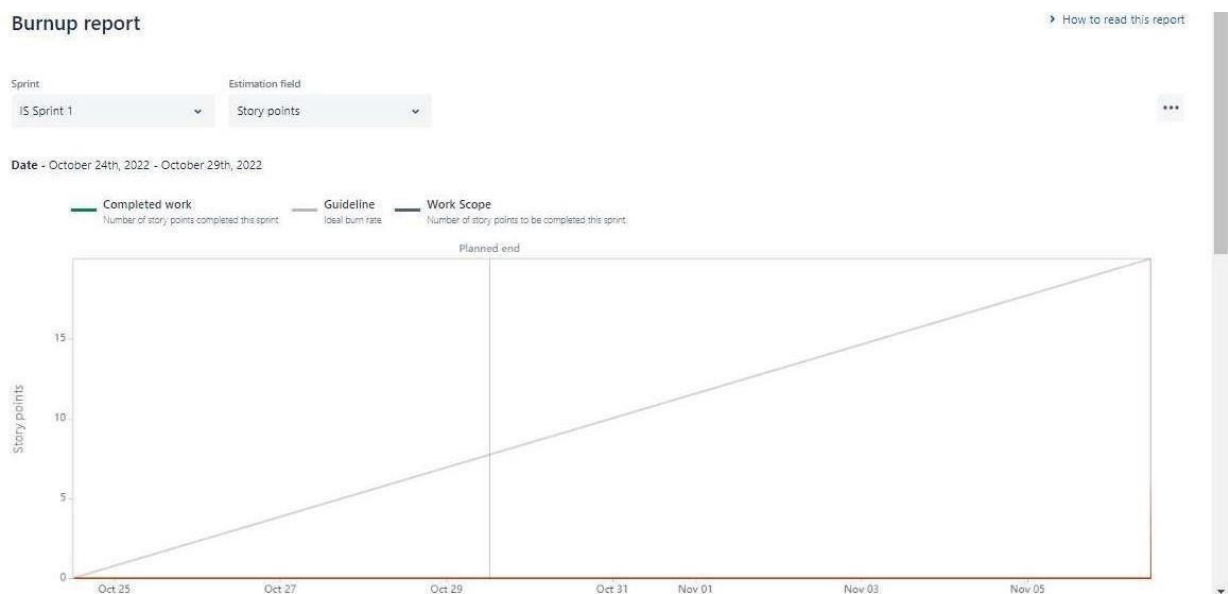

Roadmap by All Sprints

The screenshot displays the Jira Software web application. At the top, there's a navigation bar with tabs for different projects and a search bar. Below this, the main header shows the current project: "Industry-Specific Intelligent Fire Management System". A sidebar on the left contains navigation links for Planning, Development, and Project settings. The central area lists several issues, each with a checkbox, key (e.g., ISIFM50-33), summary, assignee, reporter, priority, status, and resolution. Most issues have a status of "DONE" and a resolution of "Done".
